COMPANY PROFILE

COMPANY PROFILE

Anhui Tiankang Group was founded in **1974**. The company covers an area of approximately **1068** square meters, and has a construction area of **700,000** square meters. It has more than **6,000** employees and is a diversified group company spanning multiple industries. Its main products include instruments and meters, optical cables, medical and pharmaceutical products, intelligent electrical equipment, and polymer cable trays, which are widely used in the fields of petrochemicals, power, transportation, and new energy.

52
years

The company was established in 1974 and has been developing for 52 years up to now.

5million
units/sets

The annual output of instruments and meters reaches 5 million sets.

2.88 million
kilometers

The annual output of optical cables reaches 2.88 million kilometers.

6188
Employees

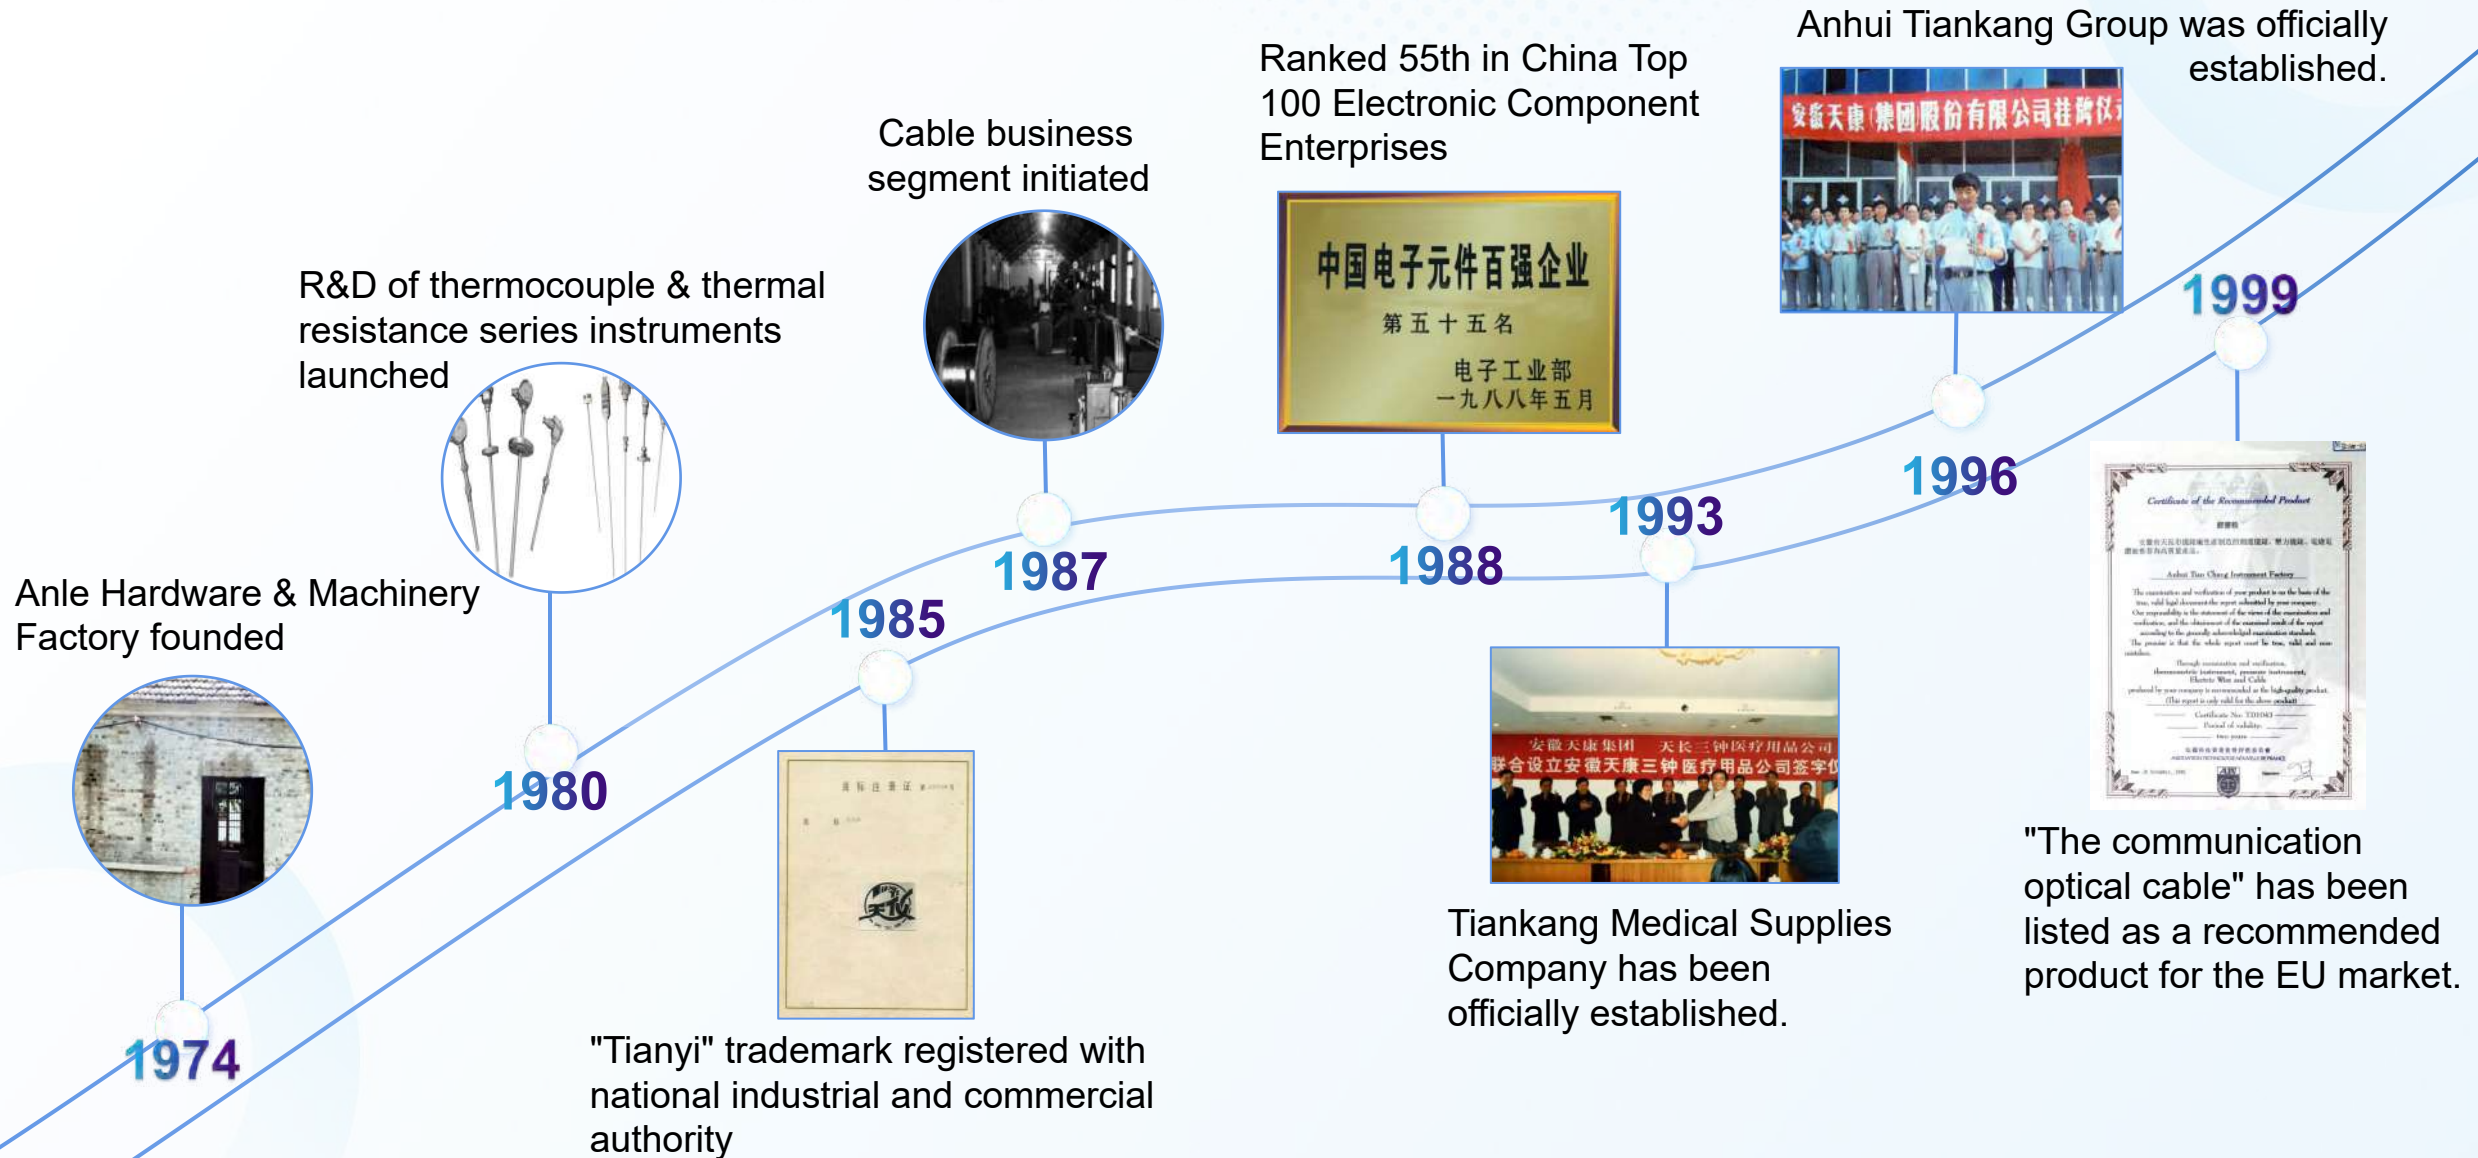

The number of employees amounts to 6,188.

CABLE TRAY

High-molecular cable trays have fully realized the "plastic replacing steel" process. Featuring high strength, corrosion resistance, aging resistance, light weight and excellent flame retardancy, they are widely used in petroleum, chemical, power, construction and other industries.
